---

NEW DUE DATE

**NOV 10th**
Nicole Pannullo
CELLULAR AND MOLECULAR MEDICINE

Nicole received an NIH F31 grant for her thesis work involving retinal regeneration!

Eleana Parajón
CELLULAR AND MOLECULAR MEDICINE

Eleana is the epitome of a model scientist. She recently became an HHMI Gilliam Fellow, championing not only equity and inclusion in science, but also outstanding scientific prowess and work ethic. The HHMI Gilliam Fellowship is an extremely competitive program with only 50 fellows being named across the US. In lab, her drive and scrupulous personality is infectious, inspiring everyone in lab to better themselves. Outside of the lab, she is an incredibly kind person who will ask about your day and be invested. I am grateful to have met her and she is more than deserving of student of the month.
